All 1.7" Certikin ladders comply to Domestic Pool Standard EN 16582 -1:2015. In order to comply with the current version of Commercial Standard EN 13451-2:2015 please order additional double treads for all tread positions on the ladder.

Certikin 1.7"/43mm ladders are now supplied with stainless steel anti-slip treads as standard, as well as the new Certikin 1.7"/43mm pinch anchor. The pinch anchor design is based on the popular 1.5"/38mm model for a secure, sturdy installation on all types of pool surround. All 1.7"/43mm ladders are now manufactured in 316 grade stainless steel as standard.

Suitable for concrete & liner pools.

Important - It is strongly recommended that ladders are inspected at regular intervals to ensure safety of users.

The 1.7" Tina, Club, Overflow, & all of the two tread ladders are manufactured to order and are therefore not ex-stock. Contact Pools Division for availability.

Double tread supplied with every 1.7" S/S ladder.

B HD99W	Rope float 5" x 3" white	£6.20
D RW50354	Self locking float red / white / red	£9.95

Handy Hint - It is recommended that floats are fitted at 1 metre intervals.

Lifeguard Chair

		Price
D CEMLC	Lifeguard chair with wheels Made in S/S AISI 304, Ø43mm tube. Treads, platform, chair, including parasol holder made of polypropylene fibre-glass.	£1800.00

Have you joined the OC-I revolution yet?

Andy Wright, Dream Pools

"We use OC-I in every filter we install or do a media change on and it has proved highly successful. Not only have customers saved water with the reduced backwash /rinse times, but also their chemical consumption has gone down. We now install OC-I filters as standard for all new builds along with the Aquaspeed variable-speed pumps for the perfect filtration system."

OC-I Filtration Media works through settlement as opposed to entrapment allowing greater flows and enhanced debris collection.

Key Benefits

- Reduces energy and water consumption
- Lightweight and easy to transport
- Filters down to one micron as verified by IFTS
- Can replace glass or sand in any filter

For the ultimate in performance and simplicity of installation take a look at the **OC-I Filter range** for both domestic and commercial pools. OC-I filters are specially developed to make the most of the OC-I benefits and you may be surprised by how competitive this filter range is. Please contact our technical team for more details

Aquatic Lifts

Extra Carriage Charge applies. Please contact for more details.

Portable Aquatic Lift 2 (PAL2)

PAL2000 PAL2 portable aquatic lift

Price
POA

The PAL2 includes all the great benefits and features of the original PAL with a modernised look, but with the additional benefits of the controls on the mast. It comes in a durable matte finish.

Portable Aquatic Lift (PAL)

PAL1000 PAL 1000 portable aquatic lift

Price
POA

The unique versatility of the PAL / PAL2 makes it the ideal solution to the problem of access for the disabled or the infirm. It has a lifting capacity of 300lb (136kg). Just roll the PAL / PAL2 to the edge of the pool, lock the wheels, set the stabilisers and it's ready for use. It incorporates two powerful 24v actuators which means that the PAL / PAL2 can be operated by either the attendant or the user on his or her own. A 24v re-chargeable battery ensures that the PAL / PAL2 will work when and where you want it to. Made from corrosion resistant materials and coatings.

Semi-Portable Aquatic Lift (SPLASH)

SPLASH Splash Semi Portable Aquatic Lift

Price
POA

The Splash is suited for residential and municipal pools and can be used with existing sleeves. It can be operated by the user or an attendant and its hand control is completely waterproof. It provides a 300lbs (136Kg) lifting capacity with standard Splash, or 375lbs 170Kg) with Splash! HD (Heavy Duty) version. It is virtually maintenance free and made with corrosion proof materials and has a lifetime warranty on the frame.

There are various versions available and all units include a Caddie for easy transportation and storage. It is powered by a 24-volt rechargeable battery, which powers a mechanical actuator. This combination insures that the Splash will work when you want it to work. Every time!

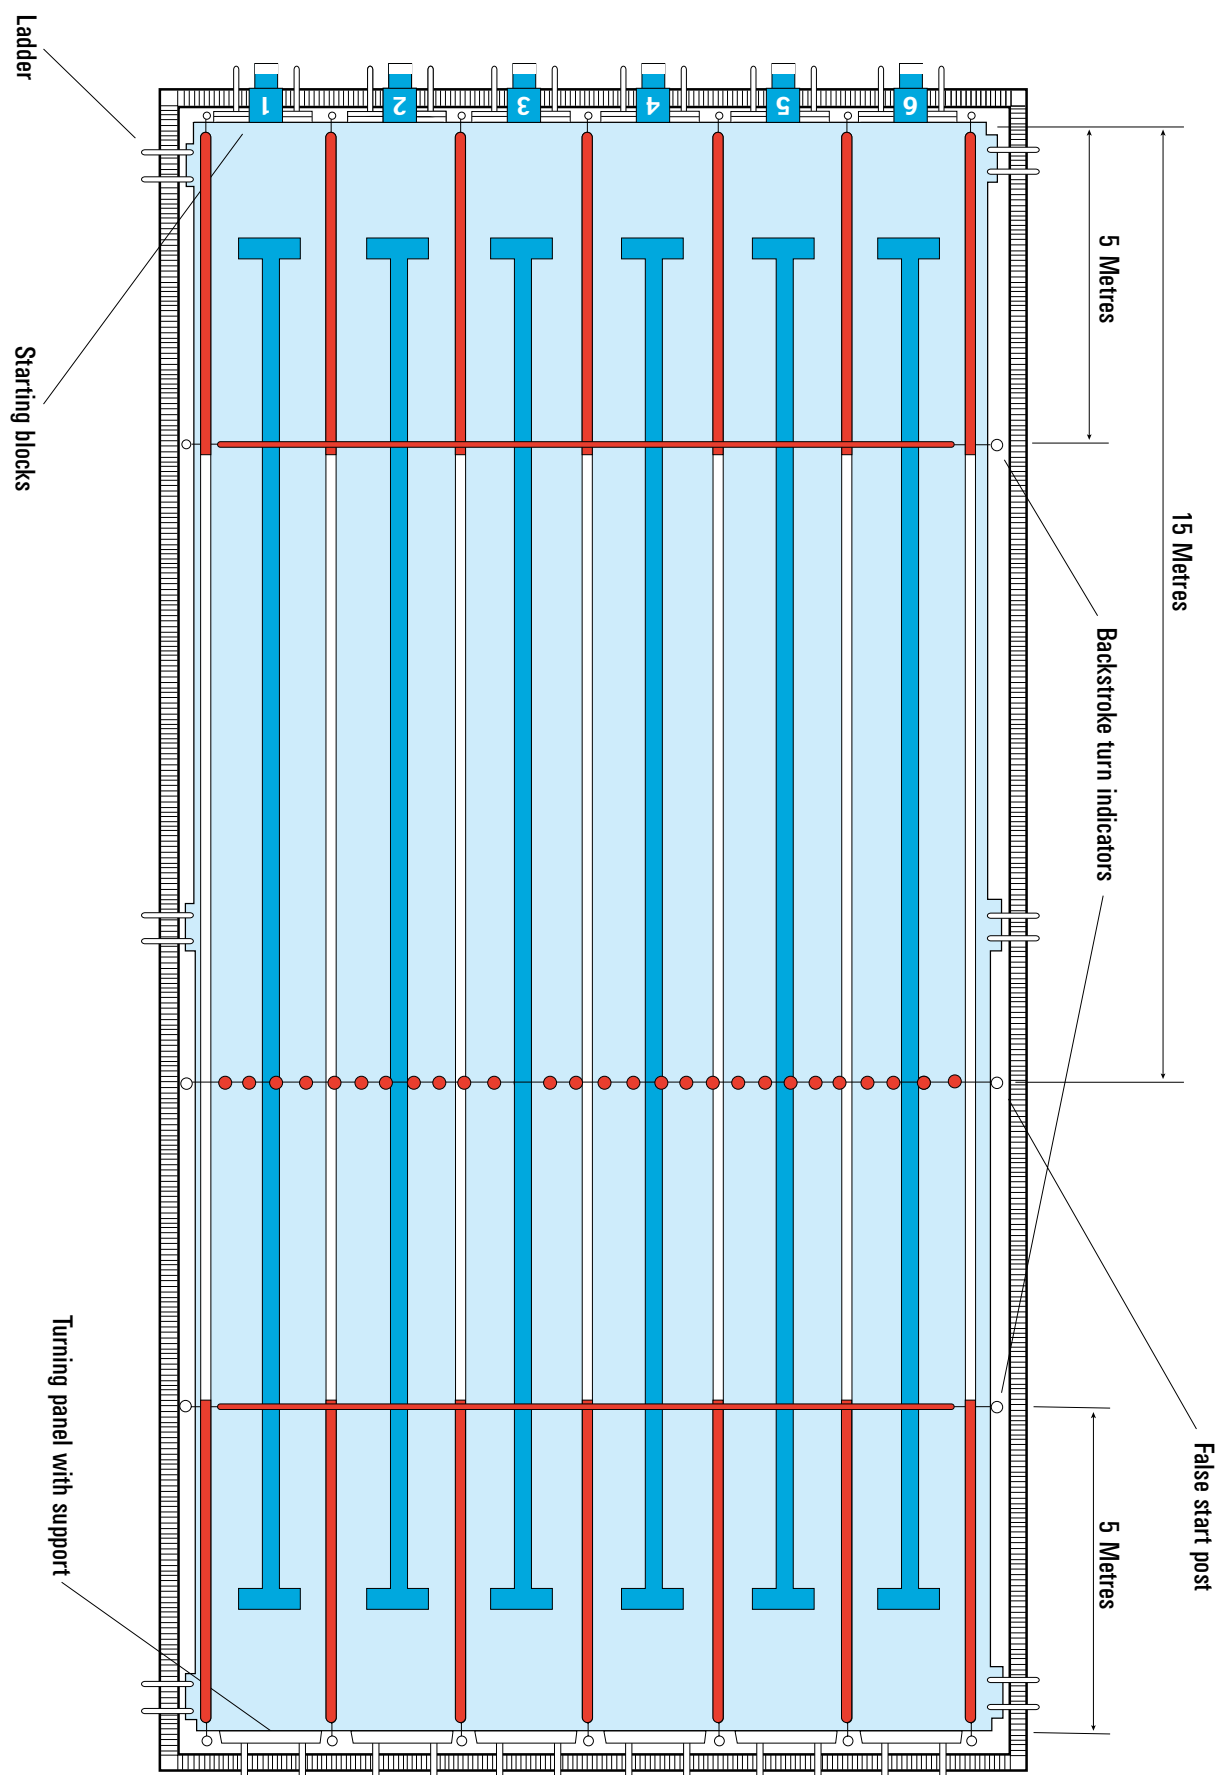

AXS Domestic Lift

AXS AXS Domestic Lift

Price
POA

AXS is specifically designed for residential and hospitality and multi-unit facilities for providing access to their swimming pools for users with disabilities. It is easy to operate and maintain, is transportable, is reliable, and is priced to fit into any budget. It is fabricated using both aluminium extrusions and stainless steel. It has a tough and attractive powder coated finish to protect against prolonged exposure to the elements. Custom colours are available. With a lifting capacity of 300 pounds, the basic version of the AXS features an exclusive seating system which is deeper and wider and designed for people with disabilities as there is no edges to restrict transfer.

Diving Boards

Installation Criteria

In the interests of safety, the recommended SPATA guidelines and standards should be followed.

Reference to the 'Cage of Safety' is an area of water of sufficient size and depth within the deep end of a pool of various dimensions that allows normal deck level diving with safety.

Irrespective of the shape or profile of the pool, the 'Cage of Safety' shall be maintained. See SPATA standards.

Tel +44 (0) 1264 356210 for a copy.

Extra Carriage Charge applies to the Diving Boards and Slides on this page. Please contact the Pool Department for more details.

Items that are made to measure, bespoke are non-returnable items.

The Frontier III Residential Diving Board

This board is intended for use on residential pools. It features an anti-slip tread for maximum safety and comes in 6', 8' and 10' lengths.

The Flyte Deck II's sleek appearance and strong construction make it the best selling stand! The durable scratch resistant acrylic ensures that you will get years of use out of the board. Each diving board features a high-grade, slip resistant sand tread for maximum safety, and comes with an instructional diving video to promote safety when diving into your pool.

All Frontier Diving Boards come with White Flyte Deck Stands as standard. Other colours are available. Please contact the Pools Technical Team for more information.

Porcelain Range Copings

Porcelain is fast becoming the tile of choice for pool copings, paving and hard landscaping projects. Developments in the manufacture of porcelain, makes it the perfect choice for clients who want a long lasting, slip-resistant and contemporary looking coping. It is extremely tough, weather and stain resistant and requires virtually no maintenance. Profiling and cutting shapes, such as pool copings, steps, roman ends and deck level grilles in order to suit any design, can be handled via our unique cutting service. An on-site templating service is available in order to capture accurate electronic data of any existing structures i.e. replacement copings for a free-form shape pool or spa etc. Please contact Pools Technical for further details.

Natural Stone Copings

Bespoke Pool Copings & Pool Surrounds

With every project being unique and individual, we understand the necessity of being able to commission bespoke one-off stone products for any application. Our stone suppliers specialise in swimming pool stone. With a team of skilled stone masons and state of the art computerised CNC saws & machinery, the possibilities are endless.

We are able to work from both detailed CAD drawings or templates & if an on-site template service is required, this is also possible.

For further information on bespoke pool copings or deck level grilles, please contact us on 01993 778855

Pool Shell Finishes

Tile Adhesive / Grout

- A 20kg bag of Ardex X77 will cover approximately 11m² when using a 5mm x 500 square toothed and notched trowel. Ardex X77 is a cement-based tile adhesive specifically formulated to have enhanced properties of adhesion and flexibility for fixing fully vitrified tiles with low porosity, as well as glass and porcelain mosaics, without the need of an admixture.
- 11kg of Ardurit F4 (code MO602WG) covers approximately 18m² for tile size 20 x 20 x 4mm with a 1mm joint width. Ardurit F4 is a cement-based fine grouting compound for ceramic wall tiles and mosaics where the joint width does not exceed 4mm.
- Use 1 litre of Ardion 101 (code GMWGA) per 11kg bag of Ardurit F4 grout to produce tile joints with improved elasticity and water repellency.

Pool Paint

- 5 litres of Water based paint cover approximately 40sqm (410sq ft) for single coat coverage.
- 5 litres of Chlorinated Rubber paint cover approximately 65m² (700ft²) for single coat coverage.
- Other colours of paint may be obtained on special order.
- Important - Water based paint CAN be used on top of rubber based paint. Rubber based paint CANNOT be used on top of water based paint. Rubber base paint not suitable for marble / cement lined pools.
- Please note the coverage figures stated are for guidance only and are dependant on the type of surface to be painted.

All the products on this page are non-returnable.

Please see page 3 of this pricelist for the Certikin guidelines.

Teamac Chlorvar Chlorinated Rubber Swimming Pool Paint

One of the best ways to ensure chemical and water resistance.

Offers outstanding protection against a range of chemicals and aqueous solutions.

Can be used in a swimming pool below and above the waterline. Suitable for salt water pools.

- Ideal for swimming pools, paddling pools, fountain pools, ponds etc
- Suitable for metal, wood, concrete, block, plaster
- Drying time is 2hrs (finger touch)
24 hrs for complete dryness
- Overcoat time is 16 hours
- Not suitable for use when the temperature is below 7°C
- Gloss Finish
- Recommended dried film thickness per coat is 20-25 microns. Recommended wet film thickness per coat is 75 microns
- Special RAL colours are available to order at a 10% surcharge and minimum order of 5 x 5 litre tins.
