Endless Pools Fastlane

- Counter Current Unit

Easy Installation & Maintenance - Roll the Fastlane across your pool deck and drop it into the water. Simple hydraulics means no electricity poolside.

Fits Anywhere

Free form or rectangular; gunite, vinyl or fibreglass; new construction or retrofit – the Fastlane puts the swim into any swimming pool.

Swim Without Turning

Pool too short for a good swim?

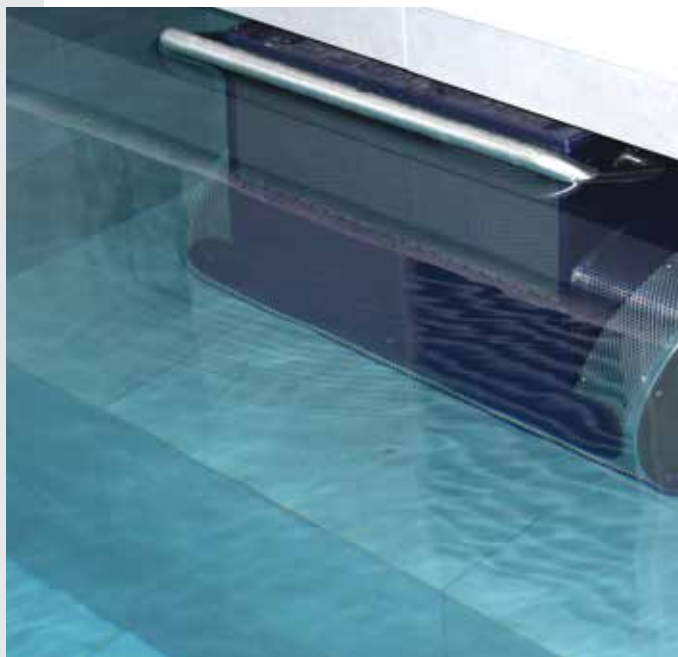

A Fastlane lets you swim for as long as you like without turning. Adjust the Fastlane to your pace and enjoy swimming in a smooth, even, river-like current.

Kid Endorsed

Swimmers love the quality of our adjustable-speed, swim current – kids love it because it's just plain fun. A Fastlane transforms your pool into a waterpark.

Fastlane - Features

- Can be fitted in virtually any pool.
- Minimum water depth required is 35".
- 16" propeller
- Remote controlled.
- Adjustable speed setting suitable for all swimming levels.
- Ideal for exercise, therapy and fun.

Fastlane Fit@Home

Endless Pools Fastlane Units

		Price
H	EPFLW/SL/NT	Fastlane unit -in wall - for new builds or renovations - silver acrylic - no wall brackets
		£6910.00
H	EPFLW/SB/NT	Fastlane unit - in wall - for new build or renovations - sapphire blue - no wall brackets
		£6910.00

		£324.00
H	EPFL19	Fastlane Fit@Home APP and PCB kit (only suitable for EP3 power unit)
		£300.00
H	EPFL3/BC	Wall bracket for concrete pools
		£145.00
H	EPFL3/BL	Wall bracket for liner pools
		£145.00

Fastlane Fit@Home

Take your exercise to the next level with our new Fit@Home app/kit.

The app allows you to control your Endless Pool using any smart device. Easily set the pace and duration of the swim current, underwater treadmill or both! Fit@Home also acts as a smart display allowing you to see your swim speed and duration while in the pool.

Specifications

Water Inlet: 6 sided, 5 square foot inlet grill

Water Outlet: 21" x 15" shock resistant, hexagonal, ABS grill

Swim Speed Control: Water-resistant, wireless, remote control. 52 discrete programmable speeds.

Maximum 66 second 100 yard pace (5-HP).

Maximum 58 second 100 yard pace (6-HP optional).

Swim Pace Display: 6" high-visibility digital LED display (optional).

Modular phone jack connection

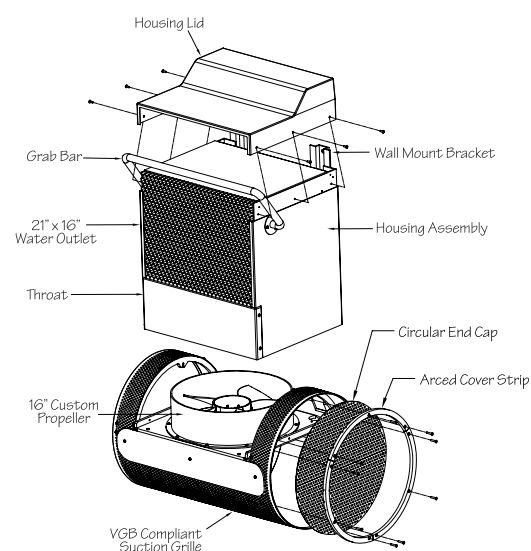

Swim Propulsion Unit: Hydraulically-powered, 16", low-turbulence propeller with proprietary water straightening technology. 122 lbs. (including rails)

Hydraulic Power Unit: 5HP

Electric Requirements: 208-240 volts, 50 Hz, 32 Amp 'C' Rated fuse

Warranty: 2 Year

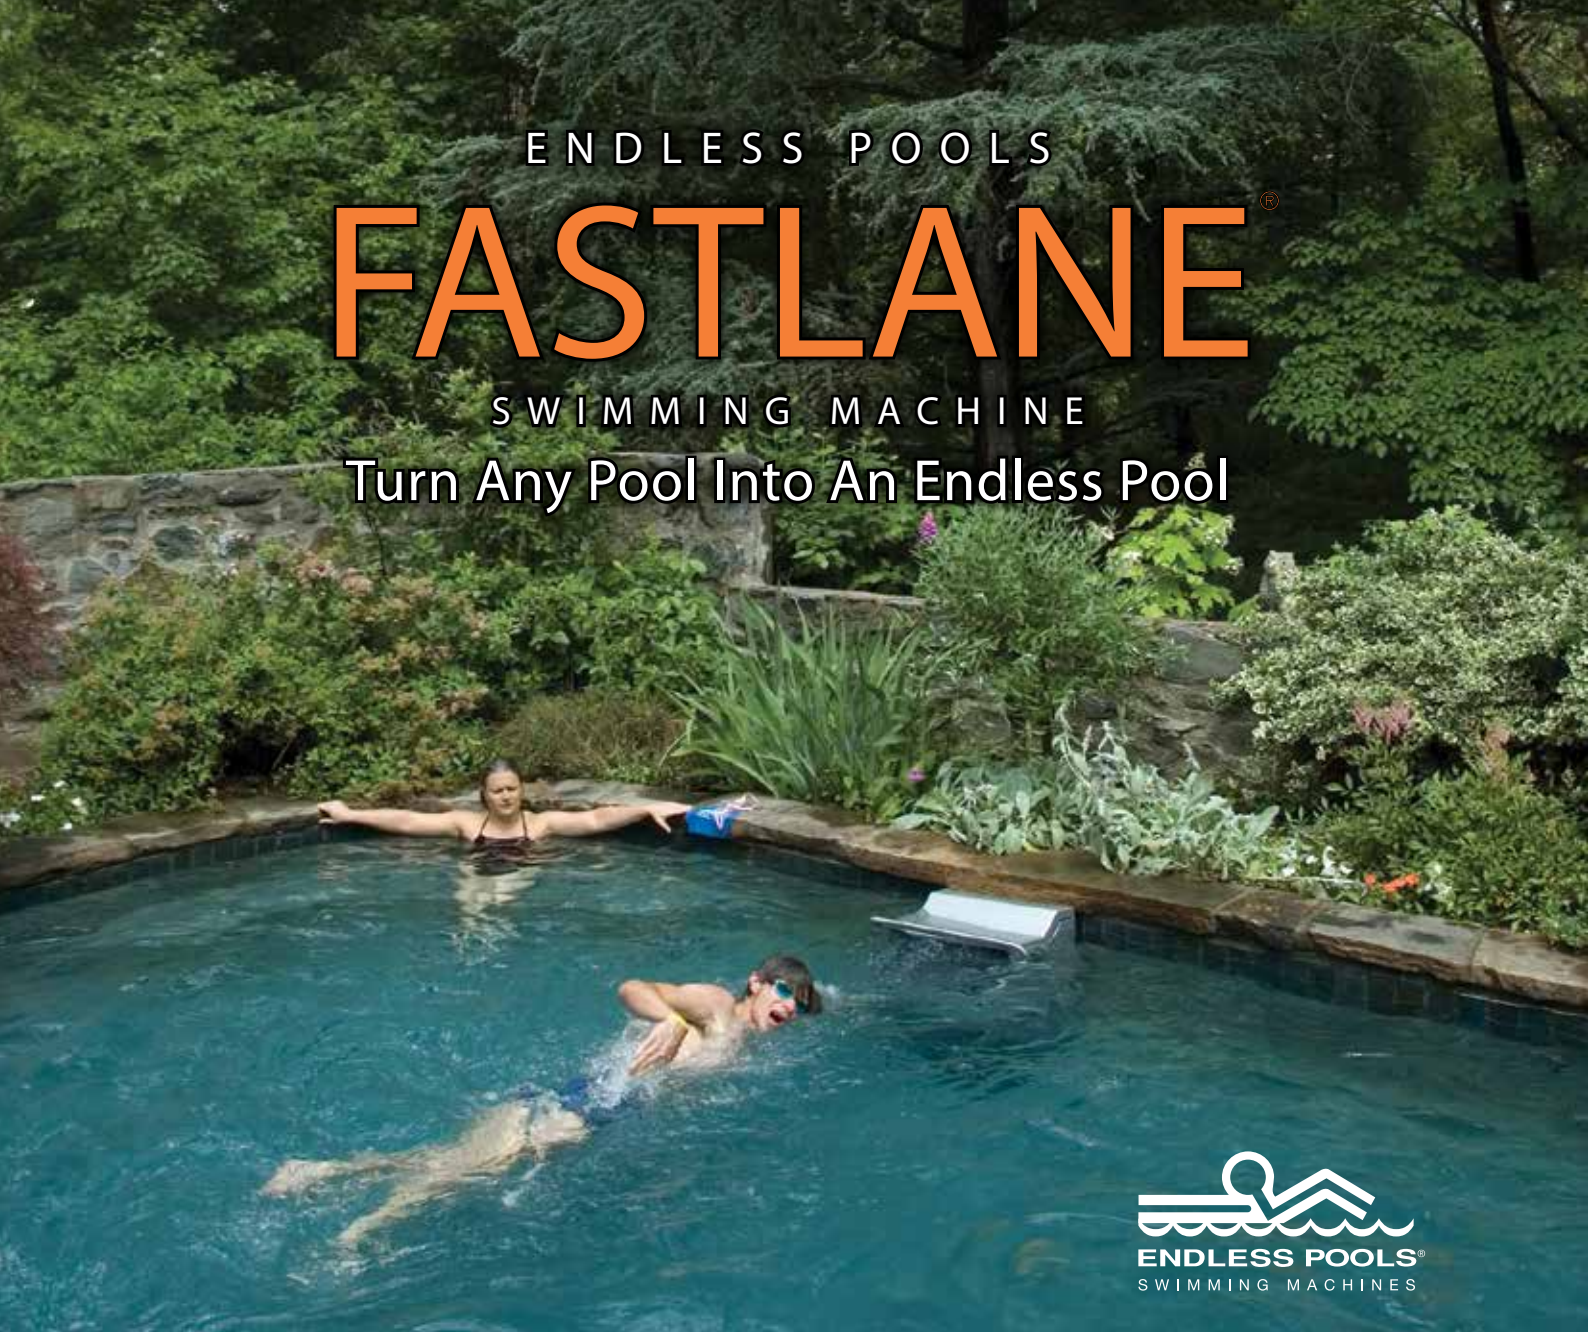

5000 US gallons per minute

ENDLESS POOLS FASTLANE[®]

SWIMMING MACHINE

Turn Any Pool Into An Endless Pool

The Fastlane swimming machine produces a smooth, quiet, powerful current that's perfect for any pool and it's adjustable from zero to 1:14/100m. Now you can turn any pool into an Endless Pool!

- Highest Quality Swim Current
- Fun for the Entire Family
- Simple to Use, Economical to Run
- Low Impact Exercise
- New Construction or Existing Pools
- Deck or Wall Mount Options

For fitness or fun, the Fastlane swimming machine adds a whole new dimension to your pool. The Fastlane system has two parts: a remotely located Hydraulic Power Unit that powers the swim current and the Swim Unit that mounts to the pool. The current is controlled by a remote control.

Fastlane[®] Specifications:

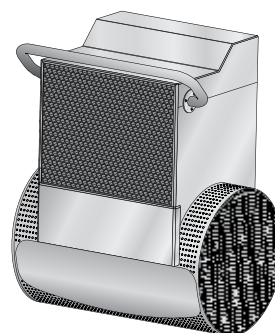

- 99cm water depth required
- VGB 2008 Compliant
- 5-HP swim current generator
- Acrylic and 316L stainless steel construction
- Available in platinum or sapphire
- 220-volt, 30-amp RCD power required

Platinum

Sapphire

Certikin Counter Current Unit

A - Faceplate Assembly & Housing

		Price
E	SFBC Concrete pools	£590.00
E	SFBPF Liner pools (includes gaskets, fittings and screws)	£632.00
E	SFBL Prefabricated pools (inc gaskets, fittings and screws)	£600.00

Kits Include: Faceplate assembly with nozzle on/off button, and housing assembly

B - Pump Kit

		Price
E	P3HPK-M Pump 1 Phase	£875.00
E	P3HPK-T Pump 3 Phase	£945.00

Kits Include: Pump, 2 x Elbows, 2 x Valves. Pipe excluded.

C - Control Box

		Price
E	CBCC-M Electrical control box - single phase	£303.00

The control panel activates the pump via the on/off button on the faceplate and assembly.

Discover a new way to enjoy your pool – and exercise at the same time! The Certikin Counter Current system is especially designed with small private pools in mind. With a Counter Current installed in your pool you can swim as far as you like, for as long as you like.

The system is equipped with a 3HP pump to create a counter-stream of water which allows you to swim on the spot. The adjustable current means that swimmers of all levels can swim at their own pace for as long as they like. The directional inlet allows a 15-degree inclination in any direction and also features an adjustable air/water mixer for a relaxing bubble massage effect.

What's included

- Faceplate assembly & housing with jet
- On/off controls
- 3 HP pump (1 or 3 phase) with connection accessories (2 x elbows, 2 x valves – pipework not included)
- Control box to activate the pump via the controls on the faceplate.
- Air suction connection Ø20mm - includes air button Ø2 x 3.5 with flexible pipe (Ø2 x 3.5).
- Includes directional inlet Ø41mm, which allows a maximum of 15 degrees as well as water and air regulation.

Specifications:

- Flow Qmax - 40m³/h
- Pump Capacity - 3HP
- Electrical requirements - 220v or 380v
- Water return connection - Ø 90mm
- Water impulsion connection- Ø 75mm
- Air tube connection -Ø 20mm
- Flexible Pipe - Ø 2 x 3.5
- Adjustable jet - Ø 41mm
- Max. angle adjustment of jet - 15°

Installation

The housing should be installed during pool construction. The Swimfit Counter Current can be purchased in component form as follows;

A – Faceplate assembly & housing

B – Pump kit

C – Control box

Only the Faceplate assembly & housing is required at the pool construction phase, which means that, for a relatively low cost, the pool can be constructed ready to install the complete Counter Current at a later date if required. The pump should be installed as close as possible to the pool for maximum performance (within IEE regulations)

Fluvo X-Jet High Power Counter Current

A unique concept in powerful counter current swimming. The wide area output flow creates a uniform current around the entire body, just like a wave in the ocean. The unique advantage of X-Jet is that swimming against a counter current is no longer pointed at a single point, but is experienced at the full width of the body. The control is done through touch sensitive buttons to switch 1 or 2 pumps on and off. Due to the extremely flat construction with a height of only 25 mm, the X-jet can also be effectively installed in smaller pools. The system includes two certified secur 40 suction niches according to DIN 13451. This guarantees maximum safety in your pool.

Please contact the Pools Division Technical Team for advice regarding positioning of the two Secur 40 suction grilles to ensure optimum performance from the X-Jet system.

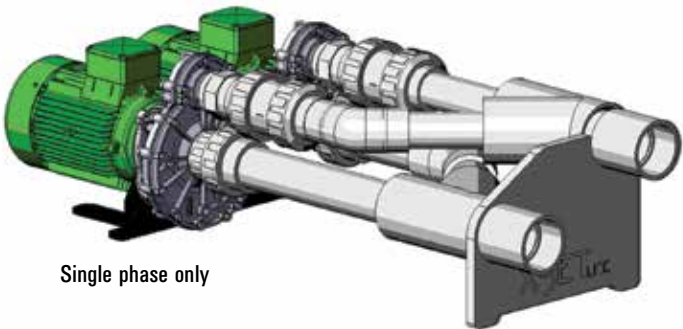

Specifications	Single Phase	Three Phase
Power:	2 x 2.2kW	5.5kW
Flow:	70m³/hr	80m³/hr
Flow Velocity at the nozzle:	6.5m/s	7.4m/s
Control:	Pressure sensitive	Pressure sensitive
Flow Regulation:	2 stage	6 stages

Installation Kits (Niches)			Price
H	FL98450	X-Jet Installation kit for concrete or liner pools	£487.50
H	FL97801	X-Jet Secur 40 suction installation kit for concrete or liner pools - 2 required per system	£766.00

Adaptor Kits (Face Plates)			Price
H	FL98470	X-Jet Adaptor kit for concrete tile pools	£952.50
H	FL97811	Secur 40 suction Adaptor kit for concrete tile pools - 2 required per system	£570.50
H	FL98472	X-Jet Adaptor kit for concrete liner pools	£952.50
H	FL97812	Secur 40 suction Adaptor kit for concrete liner pools - 2 required per system	£570.50

X-Jets Motor Kits			Price
H	FL98490	Complete Motor kit for X-Jet Fluvo - Includes: 2 x 2.2kw, 2900rpm, single phase motors, 2 x control boxes with converter and pipework manifold for X-Jet and secur 40 suction.	£3687.00
H	FL98350	5.5kW 3 Phase Motor Kit - C/W Frequency Converter	£6704.00

More powerful systems are available. Please contact Pools Division Technical for details.

XANAS® – the natural spring in the pool

XANAS® is an award-winning counter current system that combines modern design with maximum operating comfort. It is characterised by an extra-flat design with an integrated suction through a brushed stainless or ABS drop-shaped grill for an optimum flow. It can be specified with pressure sensitive switches or rotary knobs with single or three phase options and maximum flow rates between 42m³/h and 72m³/h.

Play Gear - Children's Water Features

Interactive!

Manufactured from brightly coloured GRP, many features have built-in mechanical hand pumps allowing children to activate water sprays from various nozzles simply by pressing the pump handle.

Just Fun!

A highly cost effective way to enhance any leisure centre, swimming pool, holiday park, paddling pool or theme park. Manufactured to the highest standards, they feature ultra-violet and water chemical resistant coatings, bright glossy colours and smooth rounded edges for maximum safety, guaranteed to appeal to kids of all ages.

No Pipes!

Each model is self contained and utilises the existing swimming pool water supply. Multiple feature schemes can usually be installed and commissioned within a day, making a themed play area a very attractive option.

Simple Retrofit!

Can be installed in or around existing pools. No major building works, no excavations, no buried pipes, no hassle. Durability, ease of installation and virtually no maintenance makes "Play Gear" children's water features the ideal solution.

Water Playgrounds

Our standard range of models have been developed to offer maximum safe enjoyment for children up to 12 years, with soft rubber valve wheels, anti-slip platforms and softened water sprays.

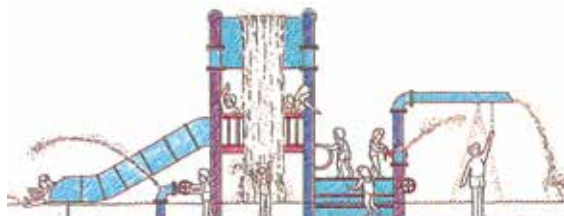

The Water Playground frame is fabricated from hot dipped galvanised mild steel sections. Platforms, slides and features are produced from glass reinforced polyester, making the Water Playground an incredibly robust structure.

Water Playgrounds are suitable for both indoor and outdoor installations. Each model is manufactured to order, this method allows us to offer non standard / customised Water Playgrounds at little additional cost. We offer a FREE, design and site survey facility to accommodate all non standard applications. (UK only).
